Jib Area — 10.4 sq. metres (112 sq. ft.)
No. 1 Genoa Area — 18.9 sq. metres (203 sq. ft.)
Spinnaker Area — 45.3 sq. metres (488 sq. ft.)

Sonata 7

The Sonata 7 is one of the most comfortable family cruising yachts available in the yachting market today. For a 23 footer it is extremely spacious down below.

Sleeping is provided by six berths and can accommodate an average family in complete comfort.

The separate galley includes built-in ice box, sink, stove compartment and plenty of storage space under.

A separate toilet compartment is much more practical for family use than those which are located under bunks. Storage space is located under all berths and other lockers conveniently placed throughout the yacht.

A large pop top provides standing headroom and plenty of fresh air.

The cockpit is large and self draining. There are lockers built in for fuel tanks, ropes, fenders etc. Small coaming lockers are for small items such as sunglasses, sun lotion etc.

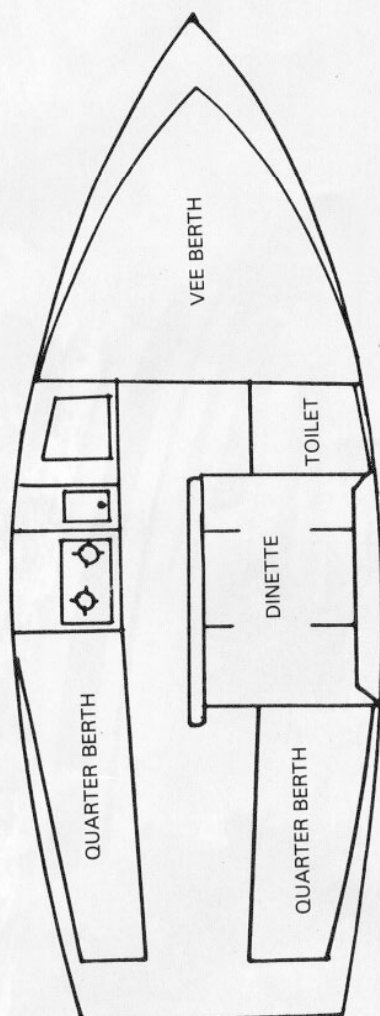

The forehatch is perspex alloy framed for access to the foredeck and anchor well, as well as providing light and ventilation.

The rigging is a simple masthead configuration with all controls leading back to the cockpit which assists greatly when sailing short handed.

The new rudder blade stows vertically in its alloy rudder box for ease of trailering or launching.

The ballasted swing keel retracts fully into the hull requiring just a foot of water to float the yacht.

The fixed fin keel model has proven to be popular with those who prefer to permanently moor their yachts.

SPECIFICATIONS

L.O.A. — 6.9 metres (22 ft. 9 ins.)
