

SYA EQUIPMENT FOR LOAN

The Association has a number of items of equipment available for loan.

Please contact our Equipment Officer, Mike Hale, on 0418 351 758 to organise collection or seek advice on use for any of the equipment listed below.

1. CUTTING TOOL

Used with Swaging Tool for getting neat cuts on multi-strand SS wire

2. LAZY TONG RIVET TOOL

Heavy Duty Riveting Tool for rivets of size up to 1/4".

3. SWAGING TOOL

Used for swaging wire of diameters 2.5, 3.0, 4.0mm. Note - not suitable however for any standing rigging.

4. ANCHOR CHAIN -

Extra Long 30m of 6mm galvanised anchor chain. Ideal for a Whitsunday cruising where coral will otherwise chafe rope anchor lines.

5. POWER SANDER

Makita Model 9207SPB, Serial 393132E Power Disk Sander/Polisher ideal for finishing work on the hull. Users to procure their own disposable pads.

6. BOAT HOIST

Designed to lift Sonata's off their trailers, so that the hull can be better accessed, and keel removed. Usage charge may apply.

7. STENCIL KIT

As recommended by Coast Guard and police, give your trailer the identity of your boat by stencilling the boats name on your trailer.

8. TUBING BENDER

A tool for bending 16 mm dia. SS and aluminium, and/or 25mm dia. aluminium tube. Bend your tubing with a nice even radius. Ideal if you want to construct a Bimini or shape some new railing.

9. INFLATABLE PFD TEST KIT

Inflatable Personal Flotation Devices need to be regularly checked for leaks. Don't wait to find out when you are in the water. The kit includes digital weigh scale for the gas cylinder, precision pressure gauge, valving, tubing, and inflation pump all packaged into an aluminium carry case.

10. DANFORTH ANCHOR

A spare anchor to borrow at any time, and ideal to take with you on your next Whitsundays cruise.

11. BATHISCOPE

Heading for the Whitsundays or other areas of reef and coral, then why not take along this Bathyscope. The glass bottom base is 35cm dia. and stands 33cm tall when assembled or 23cm when disassembled.

12. CARAVAN SCALES

Caravan Weight Control provides you with complete control over the total weight and the partial loads on the individual wheels

Maximum individual wheel weight of 1.5 tonne.

13. DRAW BAR SCALES

These scales are to measure the drawbar weight of your trailer on the tow vehicle. The correct downward pressure on the tow ball should be 10% of the towed load.

SYA EQUIPMENT CONDITIONS OF LOAN

The SYA items are loaned under the conditions that the member agrees:

1. To replace the item if lost, destroyed or stolen.
2. To make good any damage at no cost to the SYA.
3. Not to lend the item to a third party.
4. To use the item in a safe manner and in accordance with any supplied instructions.
5. To use the item at his/her own risk and to indemnify the SYA against any consequential damage.
6. To return the item to an agreed location on the agreed date.
7. To pay for any carrier costs involved in dispatching or returning items
